That sounds like a good idea. I will tell Erin to arrange a call with Roux and their risk contractor so she and Brian can discuss and hopefully work the issues out prior to the January 16 call.

Hey Gunnar,

Have Erin try to get in touch with Brian and see where we are. If there are things that were left out, I am fine with Brian and Erin talking with Roux to find out why? If need be they may be able to correct. If not we can have an internal conversation and submit official response.. Your thoughts?

Mike and Dick:

An FYI on where we are at with the responses to comments to the BERA interim deliverables.

Gunnar,

I have done a read-through and this it is a good idea to coordinate with Brian on this. Roux seems to have dismissed some comments that Brian had and appears to be sweeping them under the rug. I will get an email to Brian on Monday to outline those that I think require discussion. After that discussion, I can draft responses to be provided to Roux prior to the call. How does that sound?

Hi Erin:

Can you provide me a schedule of when you can review the responses? Ideally, we would like for you to coordinate any additional comments you have with Brian and Sherry, and get these submitted back to CFAC/Roux prior to the January 16 call (invite I just forwarded to you).

Thanks,
Gunnar

Mr. Cirian,

On behalf of CFAC, attached are the responses to USEPA comments on the draft Interim Deliverables for the Baseline Ecological Risk Assessment Work Plan.

We are proceeding with preparing the risk assessment and will incorporate these responses into that process.

Please contact me if you have any questions regarding this submittal.

Thank you,
Laura

Subject: EPA comments CFAC BERA Interim Deliverable TMs

Laura:

On behalf of Mike Cirian, attached please find EPA's comments to the draft *Technical Memorandum: Proposed Refined Ecological Screening Values to Support the Baseline Ecological Risk Assessment at the Columbia Falls Superfund Site, Former Columbia Falls Aluminum Company Aluminum Reduction Facility, Columbia Falls, Montana* dated September 25, 2018, and draft *Technical Memorandum: Proposed Wildlife Exposure Modeling Approach to Support the Baseline Ecological Risk Assessment at the Columbia Falls Superfund Site, Former Columbia Falls Aluminum Company Aluminum Reduction Facility, Columbia Falls, Montana* dated August 17, 2018.

Please delete the comments to the BERA interim deliverable that I sent yesterday, as I noticed a slight formatting error, and use these two instead.

Thanks,

Gunnar Emilsson, P.G., P.E., BCEE
